Washington, D. C.

TV FILM CLIP LIBRARY

Volume I  
March 1954

The Motion Picture Service of the U. S. Department of Agriculture offers a stock scene library service to land-grant colleges and other organizations and individuals interested in using agricultural motion picture footage in the production of films and television programs. Lists of stock scenes available will be published as material is added to the library.

It is suggested that these lists be kept in a ready reference file. The scenes are grouped under the title of the USDA subject for which they were photographed. Further cataloging or cross-indexing will be at the discretion of the user.

Scenes should be ordered from the Motion Picture Service by the scene numbers and descriptions, and in the length indicated. Double-perforated film stock will be furnished by the Motion Picture Service unless otherwise specified. A check or money order made out to the Treasurer of the United States must accompany each order. Formal purchase orders will be accepted from Federal and State Government agencies.

The following price schedule will be in effect until further notice. These prices are based on costs of printing, processing, packaging, and mailing:

16mm black-and-white prints .....	\$0.10 per ft.
16mm black-and-white duplicating negative .....	0.25 per ft.
16mm color prints (made from original) .....	0.25 per ft.
MINIMUM ORDER .....	\$5.00

Abbreviation Code:
